Mr. M. Ahmed Khan

PRESIDENT

Khairul Islam Higher Education Society, Mumbai

The Khairul Islam Higher Education Society lost its former President Madam Fatma Zakaria on 6 April, 2021. (It should be noted that Maharashtra College of Arts, Science and Commerce & Dr. Rafiq Zakaria Center for Postgraduate Studies and Research are run under the aegis of KIHES.) A meeting of the members of the management was held on 26th August, 2021 to elect the new president of the society. And the young and dynamic Mr. Ahmed Khan, a doyen in the fields of social work as well as education, was elected unopposed as the President of the Khairul Islam Higher Education Society. Mr. Ahmed Khan's long association with KIHES, his pleasant and approachable personality, his inspiring and passionate leadership, his valuable and farsighted ideas for growth and development, his ahead of the curve thinking are just a few traits of his idealistic personality that make him an adorable person.

Mr. Ahmed Khan has been active in the field of service to nation and service to people for a long time. He has worked in different capacities and left an indelible impression at all those institutions that he worked with. He has been the Private Secretary to the Governor of Jharkhand. Similarly, he has worked as the Education Inspector at the University of Jharkhand. He was the member of Central Board of Film Certification, Govt. of India, for two terms. He is also the General Secretary of the Green Movement, Mumbai. He had been appointed as the Secretary of the Mumbai Chindies and Waste Merchants' Association as well. The saga of the services that he rendered for the welfare of all and sundry is never-ending.

November-2021

MY DASH BOARD

It should be noted that Mr. Ahmed Khan was also appointed as the Chairman of the KIHE Society during the life of Late Madam Fatma Rafiq Zakaria. The members of the management and the Principal of Maharashtra College, Dr. Sirajuddin Chougale congratulated Mr. Ahmed Khan on his election as the President, and expressed hope that under his visionary leadership the college would go from strength to strength.

Pandemic Overview on Online Education

The Covid Pandemic has taken a great toll on the education system and on all the stakeholders especially the students. Almost for two precious years, the students have been deprived of physical interaction with schools and colleges. These two years have made them slaves of the 'mobile' phone. Excessive exposure to the net has made them addict to the media. Now, apart from their daily dose of online learning (both school/college and classes), the remaining time is also devoted to online surfing. Parents are unaware of the sites they excess and explore. Chances are high that they are trapped in illicit websites that may erode their morals in the time to come. This is a big blow for the young generation as they grow.

On the other hand, the teachers have been learning new skills to handle the new medium of teaching. The situation of the teachers can be compared to someone who is pushed in the water and has no option but to learn to swim to save oneself. They had to take a plunge and start adjusting and learning new skills to understand and tackle the medium. At times, they had to take the help of their own students or their children to overcome the hurdle. Teachers who were on the verge of retirement also overcame the challenge. This brought forth the factor that age is not a barrier for learning. It is to the credit of the teachers that they overcame the technology-related learning disability very quickly. To go an extra mile, many teachers became innovative in teaching online.

Online and out of sight from the teachers, the school kids have a faceless tutor. It becomes difficult for the teachers to mentor the students. The teachers are helpless and so are the parents. These young minds are missing a very crucial input which plays an important role in molding them for a lifetime. To imagine the outcome because of absence of the guidance of teachers/parents is scary. With no hands on training and only theoretical inputs (that too online) the students, who have passed their exams and especially their graduations, will find it difficult to get foothold in the market

November-2021

E-TABLOID

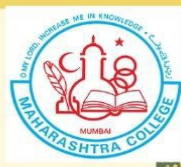

MY DASH BOARD

There is a large numbers of students who because of the problem of not having appropriate devices and no consistent network have lost umpteen hours of online education. Students from rural and semi urban areas are the major sufferers. Similarly poverty has always been a hurdle in acquiring education and with online mode of education the students from these strata have been literally thrown out of reach.

In conclusion, we have to agree that on one hand some students and institutions may have gained technically but on the other hand, in general, the student community and the education sector has eroded their values which will be difficult to fill in the years to come. But as it is said that every coin has two sides, we should try to turn the coin and see the brighter side of the situation. So, in spite of all odds, we should take it as a challenge or even opportunity to come out with new ideas, techniques and strategies.

For example, the lock down has provided ample time and this free time can be used to read, learn and train ourselves. We can learn soft skills, new languages give flight to our fantasy by writing stories and poems; start painting, explore our hobbies and latent talent and so on, the sky is the limit.

Let's not waste this opportunity. Let's use this for the benefit of ourselves, our family, friends, relatives, community and country. The parents need to play a pivotal role in this transformation. This is because we need to keep in mind that the online or work from home is surely here to stay even after we overcome the covid pandemic.

**NSS & NCC Units of Maharashtra College and Alumni Association
Kokan Flood Relief Fund** in association with **Anjuman
Dardmandane.**

A large number of NGO's came forward to help the people affected by the flood in Kokan. Maharashtra College as usual also participated through its NSS & NCC Units.

I would like to thank all donors who contributed to the Relief Appeal. We also contributed towards Kolhapur Flood Relief simultaneously.

Currently, we are funding the building of one house of a widow in village Suwad of Poladpur Taluka.

Collection Details: Total Collection **₹10,66,059/-** in form of Cash and Relief Material. Total fund deployed in relief through Anjuman Dardmandane in Mahad Khed and Chiplun in Ratnagiri and Kundwa and Rajapur in Kolhapur. We have also given an Interest-Free Loan of **₹4,00,000/-**

We also would like to thank the entire team of Anjuman Dardmandane for their support.

Dr Sirajuddin Chougale

MY DASH BOARD

DR. ABDUL MAJID ANSARI

VICE PRINCIPAL

My worst enemies are my relatives.

Shocked?

Surprised?

Wondering?

Or accepted?

Famous urdu humanist and sarcastic Mushtaq Ahmed Yusufi sarcastically says that there are three levels of enemies.

1. Enemies - simple enemy
2. Demon, evil- deadly enemy
3. Relatives - most dangerous enemies

Why relatives are superlative enemy? Who makes them so?
and how to convert and make them friends?

In the concept or theory of Relationship Management (RM) it is said that most of the relationships are disturbed or broken due to wrong communication, part communication or no communication. If there is full communication or double communication, there are very less chances of thrift or drift in the relationships. Now the question is why full or more than complete communication doesn't take place? The answer is simple and a very small word. That is EGO.

When our ego is hurt, we stop communicating. We expect sorry from them, we want to punish them for their misbehaviour etc. But in most of the cases, this doesn't happen and we nourish our ego to become more strong.

Then our relatives don't respond they way we expect them, they don't do what we want them to do, they don't apologise and we are hurt, disappointed. Now we start feeling and even telling others that our relatives are our worst enemies. In this process we get hurt and we keep hurting them too. The relationship comes to an standstill or even to the stage of breakup. What is the solution?

A very simple word. **SORRY.**

this is a magic word.

We should try and make it a habit to use this again and again.

The magic works wonderfully and we can convert all our relatives (enemies) into close friends and well wishers. So, let's pledge to use the word SORRY at both the occasion, first when we are at fault and second when we are not.

مہاراشٹر کالج میں اساتذہ کی کتابوں کا شاندار اجرا

ممبئی: ۹ ستمبر بروز سنچر مہاراشٹر کالج محمد علی میٹھا آڈیٹوریم میں ریاستی سطح کے ایک روزہ ورکشاپ کے دوران کالج اساتذہ کی کتابوں کا شاندار اجرا عمل میں آیا۔ ان اساتذہ میں ڈاکٹر عبدالمجید انصاری (وائس پرنسپل مہاراشٹر کالج) کی کتاب ”مغربی نظریہ سود ایک جائزہ“ جس میں سود کی نحوست بیان کی گئی ہے اور مختلف حوالوں سے یہ بتانے کی کوشش کی گئی ہے کہ سود کے متعلق مغربی نظریہ کیا ہے اور اس سے کیا نقصانات ہوتے ہیں۔ دوسری کتاب پروفیسر شمس الرب (شعبہ عربی و اسلامیات) کی فلسطینی افسانے ہے جس میں موصوف نے فلسطینی افسانوں کا اردو میں ترجمہ کیا ہے۔ جس میں فلسطینی لوگوں کا درد و کرب کا اظہار صاف طور پر نمایاں ہے۔ تیسری کتاب کا نام ”بیچ و تاب“ ہے جس کے مصنف پروفیسر آصف شیخ (شعبہ اردو) ہیں۔ جس میں طنز و مزاح کے موضوع پر مضامین شامل کئے گئے ہیں۔ موصوف نے تمام مضامین ذاتی تجربات کی روشنی میں رقم کئے ہیں اور بالخصوص طلبہ میں مطالعہ کے شوق کو پروان چڑھانے کے لئے مختصر مضامین سلیس و سہل زبان میں لکھے گئے ہیں۔ ان تینوں کتابوں کو مہاراشٹر اردو اکیڈمی کی جانب سے مالی تعاون فراہم کیا گیا ہے۔ پروفیسر اظفر خان (شعبہ اردو) نے بڑے ہی دلچسپ و دلکش انداز میں تینوں کتابوں کا خلاصہ پیش کیا اور شہر کی مشہور و معروف شخصیات کے ذریعے کتابوں کی رونمائی کروائی۔ اس پر مسرت موقع پر کالج پرنسپل، انتظامیہ و دیگر تدریسی اسٹاف نے تینوں اساتذہ کرام کو مبارکباد پیش کی۔

**A case study of Maharashtra College of Arts, Science and Commerce.
Maharashtra College runs Maharashtra College Employees Co-operative Credit
Society Ltd. (MCECCSL) and Al-Falah Interest Free Credit Society.**

Maharashtra College Employees Co-operative Credit Society Ltd. (MCECCSL) was started in the year 1971 with registration under Co-operative Credit Society Ltd. (BOM/RSR/552/1971 dated 23/3/1971) for the in-service employees (Teaching and Non-Teaching staff) of Maharashtra College. The objective of MCECCSL is to provide financial assistance to all the in-service employees of Maharashtra College in financial constraints.

From the beginning, the society MCECCSL was interest based. The members were charged interest @ 6% of the loan amount. However in the year 2018, by a unanimous resolution passed by all the members, the charging of interest was waived and the system of minimum processing fees charging was introduced. As a result of this, now processing fees of only 0.5% is charged. This resulted into a big benefit to all the members.

The newly appointed employees are encouraged to become a member of the society to get the financial assistance. An average monthly contribution is Rs.1500/- pm from each member which is deducted from their pay. Loan amount Rs. 20,000 to Rs. 3,00,000/- can be sanctioned with loan processing fee 0.5% of loan amount. EMI are calculated on maximum of 84 months (7 years term loan) and prepayment facility also extended.

Al-Falah Interest Free Credit Society started in the year 2013. The members are teachers from Junior and Senior College. The objective of Al-Falah Interest Free Credit Society is to provide financial assistance at 0% interest rate to the teachers in financial need. Average monthly contribution starts with Rs.2,000/- pm. Teacher taking loan has to pay off entire loan amount in 30 interest free monthly installment.

ONE DAY STATE LEVEL WORKSHOP ON " MICRO FINANCE THROUGH NIDHI COMPANY LTD"

مہاراشٹر کالج میں مائیکرو فنانس تھرونڈھی کمپنی لمیٹڈ کے موضوع پر یک روزہ ورکشاپ کا انعقاد

ممبئی: بروز ستمبر 19 اکتوبر کو شعبہ کامرس اور بی ایم ایس کی جانب سے محمد علی مہاراشٹر کالج آؤٹوریم میں دوپہر چھ بجے دو بجے MICRO FINANCE THROUGH NIDHI CO.LTD ورکشاپ کا انعقاد کیا گیا۔ جس میں انٹرنسٹ فری لون کے مختلف پہلوؤں پر مقررین نے اظہار خیال کیا۔ ممبئی اور دیگر شہروں سے آئے پچاس سے زیادہ مہمانوں نے پروگرام میں شریک ہو کر مزید چار چاند لگا دیئے ان میں ابوسفیان انصاری (کمپنی سیکریٹری، پونہ)، شاہد اختر اور احسان الحق (ڈائریکٹرز مانوٹانڈھی کمپنی، مالگاؤں)، جناب صدیق بھائی (ملت ہائی اسکول، جوگیشوری)، داؤد بھائی چوگلے (آئیڈیل فاؤنڈیشن)، جناب منظور خلطاضی (رتناگری)، عارف ملاتی اور جناب عزیز (فیملی فرسٹ، کبیر)، جناب فرحان مقبہ (صدر میسکو)، محمد حسین کھٹ کرے، سلیم ٹولے، عارف خان (پرنسپل احمدیہ ہائی اسکول) کے علاوہ مہاراشٹر کالج کے اساتذہ و طلباء بھی شامل تھے۔ پروگرام کا آغاز بی ایم ایس کے طالب علم سفیان شیخ کی تلاوت قرآن کریم سے ہوا۔ اس کے بعد پرنسپل مہاراشٹر کالج ڈاکٹر سراج الدین چوگلے نے تمام قرب و جوار سے آئے مہمانوں کا استقبال کیا اور مقررین جلسہ کی خدمت میں میمنہ پیش کیا۔ ڈاکٹر عبدالمجید انصاری (وائس پرنسپل مہاراشٹر کالج) نے پروگرام کے اغراض و مقاصد پر روشنی ڈالی اور کہا کہ عام طور پر ساج میں لوگ مالی لین دین میں ایک دوسرے پر بھروسہ نہیں کرتے اس لیے بہتر طریقے سے ضرورت مندوں کی مدد نہیں ہو پاتی۔ ہمیں اس غلط فہمی سے باہر نکلنے کی ضرورت ہے اور مالی نظام کو بہتر بنا کر ہم ضرورت مندوں کی مدد کر سکتے ہیں۔ ہمارے معاشرے میں مستحق لوگوں کے لیے نیکوۃ، صدقہ اور خیرات وغیرہ کا نظام موجود ہے لیکن ضرورت مندوں کے لیے کوئی نظام نہیں جبکہ 50 سے 60 فی صد لوگوں کو مالی امداد کی ضرورت ہوتی ہے۔ اس کے بعد پروفیسر محمود عالم (سیکرٹری الفلاح انٹرنسٹ فری سوسائٹی) نے مذکورہ سوسائٹی کے متعلق اظہار خیال کیا اور

بتایا کہ ملک کے پانچ مختلف شہروں کا معائنہ کرنے کے بعد 2013 میں مہاراشٹر کالج کے تدریسی اسٹاف کے لیے اس سوسائٹی کا قیام عمل میں آیا اور آج تک اس سوسائٹی سے اسٹاف استفادہ کر رہے ہیں۔ پھر اس کے بعد ڈاکٹر مظہر ٹھاکر (شعبہ کامرس) نے مہاراشٹر کالج کریڈٹ کوآپریٹو سوسائٹی کے متعلق اظہار خیال کیا اور بتایا کہ اس کی شروعات کالج کے بانی محمد علی مہاراشٹر اور ڈاکٹر رفیق زکریا نے 23 مارچ 1971 میں کی۔ آج کی تاریخ میں یہ بھی انٹرنسٹ فری سوسائٹی ہے۔ پونہ سے تشریف لائے ابوسفیان انصاری (کمپنی سیکریٹری) نے NIDHI PUBLIC LTD COMPANY کے متعلق تفصیل سے گفتگو کی اور قانون کے دائرے میں رہتے ہوئے کس طرح ایک رجسٹرڈ انٹرنسٹ فری کمپنی قائم کی جاسکتی ہے اس پر روشنی ڈالی اور کہا کہ اس طرح کی کمپنی

یک روزہ ورکشاپ کا بحسن و خوبی اختتام ہوا۔

Invited Speaker

Dr Mayuri Joshi,
Maharashtra College
of Arts, Science and
commerce, Mumbai

Regarding the event....

Yoga is ancient science of health and wellness bestowed by the seers and sages of India for the welfare of the humanity. This is one of the most ancient systems of Psychosomatic training known for the human beings. Yoga has been great art and science of healthy living even though it is one of the six systems of Indian philosophy.

The invited resource person will enlighten more.
You are invited to join.

Debate Competition

Sociology Association

An online debate competition was organized by Sociology Association on 04.10.2021 at 3.00 PM. The themes for competition were Globalization, Online Teaching-Learning, Affected livelihoods in the pandemic, and New entertainment platforms: Netflix, Hotstar, etc. The purpose of the event was to bring in rationality, sensitivity among the students. Each social issue topic chosen by the students were well put forth to the audience. Such platforms do help in bringing learning and students also get to express their voices.

Total seven students participated from various streams. Participants enthusiastically spoke on the chosen topic. Vice Principal Dr. Majid Ansari graced the occasion by making way through his busy schedule and congratulated participants and organizers of the programme. Prof. Shanti Polamuri and Prof. Parveen Khan oversaw the programme as judge. Dr. Karen Miranda, HOD, Sociology was also presented her views and appreciated the efforts of the participants as well as members of Sociology Association.

An SYBA student Heeba Dhiyan anchored the programme while other members Afrin Ansari, Afrin Shaikh, Sohail Rana and Shagufta Shaikh shouldered responsibility of making registration form, e-banner and circulating message across students. Mr. Satish Bhalerao, Asst. Professor coordinated with students.

The winners of the competition :

First winner

Ansari Safa - FYBA

(Livelihood in the Pandemic)

Second winner

Heeba Dhiyan- SYBA

(New Entertainment Netflix / Hotstar, etc)

Third winner

One Day Online International Conference on Horizons
in Commerce, Management and Economics:

A Way Forward

Date: 13th March, 2021

Venue: Online Platform - Zoom

Events: Webinar

Type: Open for all (Students, Research Scholars, Academicians, Corporate professionals)

“The best events aren’t just memorable, they aren’t just beautiful, they accomplish a goal.” The One Day Online International Conference on Horizons in Commerce, Management and Economics: A Way Forward” surely can claim this achievement. The Online International Conference was organised by the Dept of Commerce, Maharashtra College of Arts, Science and Commerce & Dr Rafiq Zakaria Centre for Post Graduate Studies and Research in collaboration with KaLa’s Research & Skill Training Organisation, Vijayapur on 13th March, 2021. As the Nation is passing through an unprecedented time of nationwide lockdown and facing the mass challenge of global crisis of COVID-19, this Conference holds the vision of engaging academic fraternity in meaningful presentations made by the participants on “Horizons in the world of commerce, economics and management: a way forward” hence contributing towards the intellectual wealth of the nation. The Patron for the Conference was Dr. Fatima Rafiq Zakaria, The Chairperson was Dr Sirajuddin Chougale, Principal, Maharashtra College, The Conveners Dr. Abdul Majid Ansari, Vice Principal with Dr Sirajuddin Horiganamani, Vijayapur, The Conference Secretary Prof Arab Abdul Aziz and The Co-ordinator’s Dr. Mazhar Thakur and Prof. Abdul Rasheed.

The conference was hosted by Prof. Qudsia Virani, Faculty of BMS, Maharashtra College who did an excellent job of anchoring the online international conference successfully from the beginning to the end. The Qirat was recited by Prof Inam ur Rehman, he also presented the translation of the verses in English for the audience. The Chairperson, Dr Sirajuddin Chougale came forward to address the August gathering and introduced the College and its achievement’s over the past years. The much-awaited Chief Guest and Keynote Speaker for the day Prof Mohammed Iqbal Asaria, Visiting Professor,

November-2021

E-TABLOID

MY DASH BOARD

The London Institute of Banking & Finance, took charge over the platform and presented his views on the theme of the conference. He expressed his desire over more research to be carried out on “How to build equity in technology and community?” keeping in mind the multiple challenges faced and accepted by the entire globe due to the pandemic. Prof. Arab Aziz gave the Vote of Thanks clearly offered thanks to Iqbal Sir, who joined the Conference in the wee hours of morning (Time zone of UK) and shared his expertise with an enthralled virtual audience. The host then shared the virtual dais with Prof Misbah Karbhari who invited the Guests of Honour Prof Badiuddin Ahmed, Former Dean of Commerce, MANUU and Dr Gurunath Fagare, Principal. Kolaphur who addressed the participants putting forward their views on the theme and objectives that were desired outcomes of this conference. Prof Shanti Polamuri, proposed the Vote of thanks for the Guests of Honour. The host called upon, Dr Mazhar Thakur to initiate the Technical Sessions by sharing instructions for the huge number of participants. After meticulous planning the technical sessions were divided into two parallel sessions pre-lunch from 11:30 am to 1:00 pm and two parallel sessions post lunch 1:45pm to 4:00pm. This would not have seen success without the sound technical support provided by Dr Farzana Chandiwalla and her son Altamash, she was backed with support from Prof Haroon Shaikh Head, Department of CS and Mr Imtiaz. A list of eminent

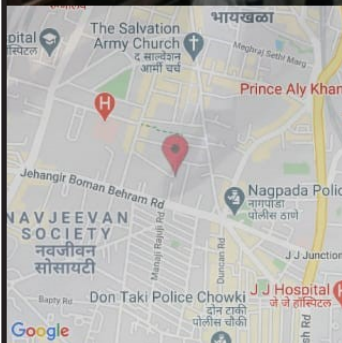

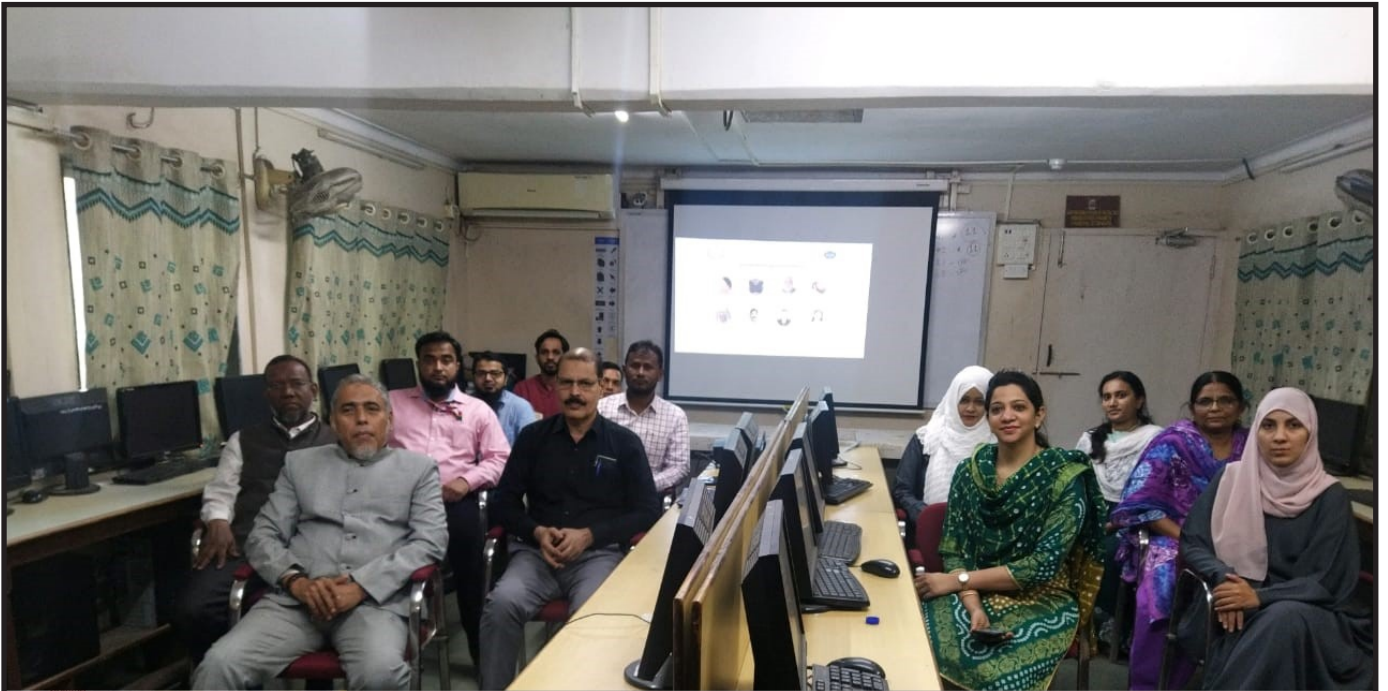

and enthusiastic Resource Persons chaired the various online sessions and provided their valuable feedback to the participants, who presented papers from various parts of the globe. They were Dr. Shaukat Ali, Dr Antra Sonawane, Dr. Arvind Dhond, Dr. Khan Ashfaq Ahmed, Dr Umesh Kollimath and Dr Noman Khatib, they played a sound role and hence made the conference resonate the theme of looking forward to the horizons. Around 53 participants presented papers which were technically sound and were immensely appreciated by the Resource Persons. The Resource persons were accompanied by hosts for the Technical Sessions, who were members of the organizing team, Prof Misbah Karbhari, Adv Sundus Shaikh, Prof Farheen Sayeed, Prof Riyazul Haq and Prof Abdul Rasheed, who saw that all the participants were given fair chance to make perfect presentations. The host then invited the Dr Swati Watts, Guest of Honour for the valedictory session, Dr Swati Watts, Associate Professor at Manav Rachna International Institute of Research & Studies, congratulated the participants of the conference and talked about the various

economic factors that were affected due to the pandemic. Prof Farheen Sayeed introduced and invited the next Guest of Honour, Dr Shariq Nisar, Professor, Ex-Visiting Fellow (Harvard Law School), Author to address the audience at the valedictory session. He relevantly shared graphic information and observations on the Global Scenario and Country Specific Scenario of the Health, Economic and Political Crisis faced due to the pandemic. The host called upon Dr Abdul Majid Ansari to propose the Vote of Thanks. Sir expressed sincere thanks and gratitude to the success of the Online International Conference in beautiful lines of Urdu Shayari. He put on record a note of gratitude for all the eminent speakers for the day and congratulated the Organizing Team for their tireless warriors, who effortlessly pulled off a gigantic task, along with the Non-Teaching members who extended support towards the success of the conference.

DR. N. K. SHARMA
HEAD OF THE DEPARTMENT OF PHYSICS

International Conference on Emerging Trends in Materials Science

Objectives of the activity:

- To make the participants aware about the latest developments in Materials Science and its applications

Brief description of activity:

The Department of Physics, KIHE Society's Maharashtra College of Arts, Science and Commerce and Dr. Rafiq Zakaria Centre for P. G. Studies and Research, Mumbai organized a Two-day International Conference on Emerging Trends in Materials Science – 2021 (ETMS – 2021) during Mar. 22 - 23, 2021, in collaboration with the Department of Chemistry, KIHE Society's Maharashtra College of Arts, Science and Commerce and Dr. Rafiq Zakaria Centre for P. G. Studies and Research, Mumbai and the Dept. of Physics, SVKM's Pramukh Swami Science and H. D. Patel Arts College Kadi, Gujarat. The objective of this conference was to bring together leading Scientists, Researchers, Academicians and Scholars around the world to exchange ideas on various aspects such as recent innovations, developments and their applications in their varied fields.

The entire conference was conducted virtually, with participants being able to partake in enlightened, intellectual conversations from the comforts of their homes.

The conference was inaugurated online, on Mar. 22, 2021, at the hands of Prof. (Dr.) J. J. Vora, Honorable Vice Chancellor, Hemchandracharya North Gujarat University (HNGU), Gujarat. He further released the Abstract Book of ETMS – 2021. The welcome addresses were given by Dr. Sirajuddin Chougale, Principal, Maharashtra College, Mumbai followed by Dr. Ajay S. Gor, Principal, PSSHDA College, Kadi, (Dr.) J. J. Vora, Honorable Vice Chancellor, HNGU and Shri Vallabhbhai Patel, Chairman, Sarva Vidyalaya Kelavni Mandal (SVKM), Kadi. The keynote address was delivered by Prof. P. M. G. Nambissan, Sr Professor, Applied Nuclear Physics Division, Saha Institute of Nuclear Physics, Kolkata on the topic "Looking at the Studies of Materials and

Beyond!”.

The conference was divided into five Technical Sessions in total, apart from the inaugural programme and the valedictory function, where in most sessions began with an invited speech, followed by Oral Presentations by the participants. On the first day, three such sessions were scheduled.

The invited Speaker Dr. Mihir Joshi, Prof. and Head, Dept of Physics, Saurashtra University Gujarat, talked about “Crystal Growth Technology: An Interdisciplinary Approach” in Technical Session - I. Technical Sessions II & III for the first day were chaired by Dr. Jagdish Prajapati, Dean, Faculty of Science, HNGU & Principal, Government Science College, Tharad, Gujarat and Dr. A. K. Srivastava, Former Prof. & Head, Dept. of Chemistry, University of Mumbai.

On second day, Technical Session IV was chaired by Dr. R. J. Pathak, Head, Dept. of Physics, R. R. Mehta College of Science, Palanpur, Gujarat. In this session, an invited speaker, Dr. Gulzar Ahmed Bhat, Postdoc Research Fellow at Texas A&M University College Station Texas USA, talked about “Making Plastics from Carbon Dioxide: An Environmentally Benign Route to Polycarbonates and their Functionalization”. This was followed by the speech of Prof. Utpal Joshi, also an invited speaker, from the Department of Physics, Gujarat University, Gujarat. Prof. Utpal Joshi talked about “Multiferroics and Magneto-dielectrics: Fundamentals and scopes”. Post this, Oral Presentations were made by the participants.

Technical Session V, started with the invited talk of Dr. Gowhar Ahmed Naikoo, a faculty of Chemistry at Dhofar University, Salalah Sultanate of Oman, on the topic “Electrochemical Non-Enzymatic Glucose Sensors Composed of Hierarchically Nanoporous Metal Oxide Based Composite Materials”, which was further followed by Oral Presentations from the participants. This session was chaired by Dr. Rajesh Modh, Principal, M. N. Science College, Visnagar, Gujarat.

The conference concluded with the valedictory function, for which the presiding Guest of Honor was Dr. Gowhar Ahmed Naikoo, a faculty of Chemistry at Dhofar University, Salalah Sultanate of Oman Dr. Naikoo offered.

the advice to research students to work hard and indepth studies in their fields of research. Dr. N. K. Sharma, the Convener, ETMS – 2021 from Maharashtra College, Mumbai presented the overview of the two-day International Conference on ETMS -2021. Some participants went on to express their views about the conference and made some enthusiastic and positive comments about their experiences. The conference came to a close with the concluding remarks of Prof. Chetan Patel, Convener from PSSHDA College, Kadi, Dr. Sirajuddin Chougale, Principal, Maharashtra College, Mumbai and Dr. Ajay S. Gor, Principal, PSSHDA College, Kadi. A final vote of thanks was proposed by Dr. N. K. Sharma to end a successful Two-Day International Conference.

Multidisciplinary E-National Conference on
'Tracing the Impact of Covid-19 Pandemic on Social,
Economic, Political, and Psychological Conditions in India:
Challenges for 21st Century'

Organised by
Social Science Departments
On April 5th, 2021

A Report
by
Prof. M.Z. Shahid

Maharashtra College of Arts, Science and Commerce & Dr. Rafiq Zakaria Centre for Post-Graduate Studies and Research, Mumbai, organised a multidisciplinary E-National Conference on 'Tracing the Impact of Covid-19 Pandemic on Social, Economic, Political and Psychological Conditions in India: Challenges for 21st Century' on 5th April, 2021. The conference which was actually conceptualised by Social Science Departments of the college began by recitation of verses from the Quran. Prof Mujahid Khan of Department of Arabic and Islamic Studies recited the verses and also narrated its translation in English. Prof Asema Siddiqui of Department of Economics who was hosting the conference along with Prof Misbah Karbhari of the same department, invited Prof M. Z. Shahid of Department of Political Science and also the Convenor of the conference to talk about the objective and concept of the conference.

While talking about the objective and concept of the conference, Prof Shahid informed the virtual audience that the preliminary discussion about the e-national conference began in January, 2021. The idea of several disciplines of social sciences coming together to organise the conference helped in understanding the multi-dimensional nature of the impact of the Covid-19 pandemic on human life. He also talked about the dominance of the word 'e'

with increasing digitisation of the formal work processes. It is acquiring more and more relevance with the social distancing being practised as a necessary norm in the life of the human population. The reality of being virtual has been gaining acceptance world-wide. He further pointed out that being skilled at technology was almost the necessity of life today.

While elaborating on the rationale behind the theme for the conference, Prof Shahid said that the Coronavirus better known as Covid-19 has created the first global civil emergency of the 21st century. It has caused unprecedented devastation, loss of human life and economic disruption worldwide. The far-reaching impact of the disease on social, economic, political, and psychological conditions in India is still being assessed. With the surge and resurgence of infections in various parts of India, newer dimensions of the disease are emerging, and stories of frustration and desolation are being retold with greater anguish.

He further said that the sudden lockdown imposed to combat the disease in India had an impact on all facets of life. It has had significant psychological and social effects on the population, especially the children, college students, working women and health workers. The imposition of social distancing and strict security measures adopted to contain the virus, have affected the relationship among people and their perception of empathy toward others. The involuntary separation from loved ones, loss of freedom, uncertainty about health conditions and losing one's sources of livelihood have created a feeling of helplessness. The large-scale disruption to economic activities in India has adversely affected almost all the sectors of national economy. It has also given enough reason to the government to deny various freedoms to people and legitimise further an authoritative administration and establish a police state with greater ferocity.

Prof Shahid, while talking about the objective of the conference further said that their endeavour, through the e-conference, is to understand and assess the impact of Covid-19 on social, economic, political and psychological conditions in India. The broader objective of the conference is to gauge the effects and analyse the various measures adopted by the government to deal with the pandemic. In such a situation an e-platform gives the citizenry an additional opportunity to ask questions to those in power. Looking at the enormity of the

sufferings caused to the people during the lockdown one is justifiably tempted to ask if it could have been done differently to minimise the damage to the economy and lessen the anguish caused to the people at large. Despite the odds, this is the time to make efforts to deal with the crisis and learn from the sufferings of the people. This is also the time to determine the possible challenges for this century and prepare ourselves to face and confront the consequences.

Principal Dr. Sirajuddin Chougale in his opening remarks emphasised the need to have this kind of academic interactions to clarify our own perception with regard to such pandemic. Dr. Chougale who in fact encouraged the members of the organising committee to organise the conference was quite optimistic about such intellectual exercises. He chose to thank the key-note speaker and other eminent guests who had joined on line to be part of the conference since morning. Dr Chougale also spoke about the various achievements of Maharashtra College during last five years and how the college has earned a name for itself.

Dr. Hanif Lakdawala, founder Director, Sanchetana Community Health and Research Centre, Ahmedabad, Gujarat, invited as a key-note speaker began his talk with tracing the history of such pandemics during the last century and how the world faced the consequences and finally dealt with it successfully. He narrated with anguish the sufferings of the people in the country due to sudden lockdown and how the migrant workers were left to fend for themselves. He talked about various incidents within Ahmedabad during the period and how at Sanchetana they could play a positive role. Dr. Lakdawala also pointed out the futility of the various governmental measures. He also talked about how discrimination is being institutionalised in health care system and people are being left to look for their own solution. Towards the end of the inaugural session, Dr. Karen Miranda, HOD, department of Sociology, thanked the guests.

The inaugural programme was followed by the technical sessions which were virtually categorised as R-1 and R-2 to better facilitate the presentation of research papers received at the conference. The technical session R-1 was chaired by Dr. Gautam Gawli, Professor and Director, Amity Institute of Behavioural and Allied Sciences, Mumbai, and moderated by

November-2021

E-TABLOID

MY DASH BOARD

Dr. Liyaqat Khan, Professor, Department of Civics and Politics, University of Mumbai. The technical session R-1 which was hosted by Professor Asema Siddiqui, had ten participants who presented their research papers.

The technical session R-2 which was digitally designed to run parallel to R-1, was chaired by Dr. Anita Rath, Professor, School of Development Studies, Tata Institute of Social Science (TISS), Mumbai, and moderated by Dr. Balaji N. Kendre, Professor & Head, Department of Sociology, University of Mumbai. The technical session R-2 which was hosted by Prof Misbah Karbhari, had 13 participants who presented their research papers.

The valedictory session which was held in the afternoon, began with expert comments and observations from the chairpersons and the moderators who had keenly listened to all the research presentations. The chairpersons and moderators of both R-1 and R-2 were generous in their appreciation for the researchers who had invested so much time energy in fact finding and had managed to present a good analysis from the data they had gathered. The chairpersons and the moderators also chose to offer suggestions and points to be cautiously adhered to while undertaking academic research. In the absence of Dr. Anita Rath in the valedictory session, her observations were read by Dr. Rakhshandah Hani, HOD, Department of Economics and Coordinator of the conference.

The observations on research papers presented at the conference was followed by talks by resource persons especially invited at the virtual conference. Shri Yogesh Mishra, Head, Research Unit, PRAJA, Mumbai, presented a very comprehensive report on 'Impact of Covid-19 in Mumbai' which was prepared after a field research by the PRAJA team. Shri Mishra in his lucid presentation which was full of data and information collected at the grassroot level pointed out how the measures to contain the virus have been disastrous for the small businesses and the informal sector. He also highlighted the severity of impact of Covid-19 on the life of the urban poor and those who were dependent on daily income from various sources.

Adv. Irfan Engineer, Director, Centre for Study of Society and Secularism (CSSS), Mumbai, in his analytical talk on 'Scapegoating During Covid-19 Pandemic in India' highlighted how Muslims in general and 'Tablighi Jamat'

November-2021

E-TABLOID

MY DASH BOARD

in particular were blamed with assistance from few media houses for spreading the virus in India. Even in a pandemic like situation attempts were made to communalise the disaster and spread hatred against a particular community. He further said that the tendency to divert the attention from one's own failure and look for a scapegoat is socially disruptive and violative of human rights. It is dangerous for society as it divides the society on communal lines and leads to discriminatory practices even by health workers and hospitals against the community who is declared by media as so called 'super-spreader'. Adv. Irfan Engineer also talked about the report of the CSSS on the topic and highlighted its findings. He pointed out there is a need for secular forces to unite and prevent such disruptions in future and blame-game against a community without any authentic data and information.

Adv. Irfan Engineer's presentation was followed by the valedictory speech by Dr. Amar Jesani, former, Chief Executive, CEHAT, and the Editor, Indian Journal of Medical Forum for Medical Ethics'. Dr. Jesani, in a very analytical and insightful narrative, questioned various terminologies used in the process of containing the Covid-19. He, for instance, stated that instead of talking about 'physical distancing' the government has imposed 'social distancing' which conveys a different connotation and through this a new form of untouchability is being practised in society. Dr. Jesani said that the fight against the pandemic was important but not by creating a social environment where people start distrusting each other. The attempt to restrict our civil and political rights are being justified on scientific grounds. Instead of bringing about improvement in our health care system people are being locked-down in dictatorial manner. While agreeing that some restrictions are required to contain the virus, it cannot be misused to violate the human rights of the citizens. The decision to impose restrictions must be based on scientific consultation and justified grounds. The idea of curtailing democratic rights to fight the pandemic is undesirable. He also stated that despite the fact that vaccines were urgently needed in India, 60 % of the vaccines had been exported which would lead to shortages in India very soon.

The valedictory session was followed by vote of thanks by Vice Principal Dr. Abdul Majid Ansari who thanked all the guests, delegates from other colleges and the members of the organising committee. The programme ended with the National Anthem.

An Online Interaction With Arts Ex Students.

On Monday 19th July at 8:30 AM, the Department of Sociology of Maharashtra College had organized an online interaction with ARTS EX students so to guide the current as well as passing students of TYBA. It was title

“वो अब क्या कर रहे हैं?” Mr. Satish Bhalerao took charge of the program as organizer. The program was generously supported by Dr. Karen Miranda, Head of Department of Sociology. Vice Principal Dr. Majid Ansari was guest of honour on the occasion.

There were 5 ex-students as resource persons cum speakers on the occasion including Asira Ansari (B. Ed), Faiza Shaikh (M.A), Hasan Nizami (Law), Samran Shamsi (M.A), and Umme Hani Khan (M.A student). However, Asira Ansari couldn't turn up due to her ill-health. There was another Law student speaker Saad Qadri who is not ex-student of Maharashtra College.

They shared their experiences of studies and their journeys how they become secured admission to different courses. They spoke about admission procedure and learning being a life time aspect and also extended their readiness to guide their successors in the field that they are studying. Instead of glorifying their disciplines, they also shed facts on the field and highlighted both sides. One of the speakers shared explained the difference between social and legal relations. A speaker also pointed social and family pressure that denied them certain opportunities. However, another speaker excited audience by sharing story of rebutting the pressure and going ahead. The speaker also highlighted that non studying peers implicitly dissuades from studying further. Another speaker spoke of respect that one receives by being a lawyer and “knowledge as power”. It was a very helpful and inspirational program for the students in the audience. They came to know about some good ideas which will help them in their further studies.

On the occasion Vice Principal Dr. Majid Ansari congregated Department of sociology for organizing such guiding event. He also shared his experience that someone advised him to do Master Degree that made him a professor.

November-2021

MY DASH BOARD

Dr. Karen Miranda also suggested students that just having BA is not enough in contemporary market. Students should pursue either professional or master courses, she stressed. The program organizer Mr. Satish Bhalerao explained the rationale of the program saying one of the reasons behind low progression rate could be students not knowing further courses and procedures. The session was hosted by TYBA student Afreen Ansari by welcoming our VIP Guest Dr. Majid Ansari & all the students. Another TYBA student Afreen Shaikh took responsibility of collecting feedback through an online form. Mr. Satish Bhalerao thanked everyone for making the program successful.

ORDINARY TO EXTRAORDINARY: ROLE MODEL FOR WOMEN ASST PROF YASSERA T NEVREKAR, DEPT COMP SCI.

Padma Shri Sudha Murthy

They show on television that women who sport black clothing, wacky hairdo, tattoos and pull off crazy stunts are badass, but do they know that a woman dressed in a simple cotton dhoti can be a total badass in real life? Mother Teresa was one of those women and Padma Shri Sudha Murthy is yet another name that goes on that list. Sudha Murthy is the kind of role model we women need today. She is an inspiration to many, with the multiple roles she has played over the years of an engineer, author, philanthropist, homemaker and many more. She was way ahead of her time and very

confident. She, later on, became the backbone of Infosys, co-founded by her husband Narayan Murthy. Sudha is a bestselling writer and has sold over 1.5 million books. Not only that, she has authored several fictional novels in Kannada and English. She is actively involved in social work in the field of education, women empowerment, poverty alleviation, healthcare, public hygiene, art and culture among others and 20 days of every month, she visits rural areas as part of Infosys Foundation relief work.

Sudha Murthy's life story is an ideal for millions and an inspiration for trillions. Sudha Murthy hails from a middle-class family. She was born in Shiggaon in Northern Karnataka on 19th August 1950. Her father R.H Kulkarni was a doctor cum Professor and her mother; Vimla Kulkarni was a school teacher. Though she was born in a middle-class family, her family was extremely studies-oriented. This was the reason Sudha, despite being a girl child, pursued Engineering when getting an education for a girl was even a matter of disbelief. In the 1960s, Sudha was the first woman to enroll in engineering when it was considered a male domain. It was such a 'men' thing then that there did not even exist a women's toilet in the campus. Sudha

Murthy never focused on the things which harassed her when she was the only student among 150 students in engineering, the boys spilled the ink on her chair and used to throw paper airplanes at her but Sudha, non-defeated with a resolved mind focused on her studies. She knew to build a building from the stones thrown at her. Everyone knew her marks before the exam results were announced and her scores were the first thing up on the wall but Sudha was unfazed because she had a bigger goal in place.

She was the first female engineer in TELCO (probably in India as well): While applying for the position at TELCO, she found a footnote that said 'female candidates need not apply', that she did not appreciate and wrote to JRD Tata raising the issue of "men only" gender bias at TELCO, asking him how a prime and innovative house like the Tatas, "which always thought ahead of time, could put such a restriction." To her surprise, she was granted a special interview with a paid round trip and was hired on spot. She then joined India's largest auto manufacturer TATA as a Development Engineer and worked in various locations like Mumbai, Pune, and Jamshedpur.

Sudha Murthy And Narayan Murthy: Two Sides Of A Coin. It would be an injustice not to talk about N.R Narayan Murthy with Sudha Murthy. Narayan Murthy and Sudha Murthy are like two sides of a coin according to me. Both of them are contrary yet complementary and supplementary to each other. In 1978, Murthy and Sudha Murthy tied the knot. The total cost of the wedding ceremony was Rs 800 which both the families shared equally. This is something that amazed me and so wanted to highlight in my article.

Sudha Murthy received Padma Shri for her contribution to the economy and social welfare. Sudha Murthy has seen things differently. She is the one who followed a vision, not a path. When others think how to change things, she was determined to take steps to change things. It is her personality and ambition that attracts all those around her and those who look up to her. Women like Sudha Murthy who single-handedly worked towards her success

with her optimism inspire and give all women and even men confidence to believe in their dreams and work hard towards achieving them. Through her simple way of life ,philanthropy and writing she inspires women with her humility. So, see the things differently, contribute to the society, break the

November-2021

E-TABLOID

MY DASH BOARD

barriers, heal the humanity and change the world into a 'Garden of Eden'. Sudha Murthy's life inspires every woman to be like her balancing the home and career on equal equilibrium. "Limitation-it's only your imagination" this is what Sudha Murthy's life is all about.

We women can learn a lot from Sudha Murthy and her values. It takes courage to lead a life full of risks and sacrifices for the sake of family and husband's aspirations. Yet, she chose to take an unprecedented path without fearing the consequences. Today, she may be Narayan Murthy's wife, but her actions and style of living say otherwise. She is and will always stay as a role model for Women Empowerment by knowledge and not by choice of clothes. Sudha Murthy inspires me to dream big and have the belief to achieve the impossible tasks in life. She is the epitome of motivation who inspires me to continue hard work without worrying about the result as success will follow if your intentions and determination are well chosen and firm.

Congratulations to Dr. Rafi Ahmed. Maharashtra College Congratulate and Welcome Lieutenant (Dr.) Rafi Ahmed for completing his three months commission Course successfully with A Grade..... Hearty Congratulation Sir..... We are proud of you... Principal Dr. Sirajuddin Chougale

Responsible Citizens of the Earth

We as responsible member of this planet earth, taking its care is our priority. But earth, due to unmindful human actions, is facing multi-fold challenges from global warming to pollution to forest fires to habitat loss for many species to reduction in natural resources to name a few. If our careless, greed laden actions has pushed earth to such critical condition, then it is our responsible actions that can heal and revert back the earth to better condition.

Taking care of this planet no doubt requires constructive policies at national and international level but it also requires small steps taken by each and every human. Which are those small steps that we can take to make earth a better place to live?

Following is the list of few responsible actions that is in our hands:

Judicious use of water, electricity at home, college, office & public places. Use of public transportation or bicycle instead of private vehicle for travelling. If possible walk instead of using a vehicle. Use of solar energy by the society you reside. Developing ways for harvesting rain water by the residential societies. Planting trees at home, and in your residential complex and elsewhere. Also not just planting them but also taking care of them. Throwing waste in the dustbin and not anywhere else. The segregation of waste into dry and wet at point of genesis.

This list of responsible human actions is endless. But we can definitely make small changes in our daily actions to ensure our contribution to take care of the place we reside – the planet EARTH.

سرکاری ملازم

معمول کے مطابق ہم وقت بیوی کی زبان کی طرح واٹس ایپ کی میچ ٹون بجی شام کی چائے کی سرسراتی چکیوں کے ساتھ جیسے ہی میں نے موبائل کی طرف ہاتھ بڑھایا بیگم مارے غصے کے بلبل اٹھیں اور چائے کا ذائقہ اگلے تیس منٹ کے لیے نیم کے ذائقہ میں بدل گیا۔ بیگم کو کھاتے پیتے موبائل دیکھنا بالکل پسند نہ تھا وہ تو موبائل کو اپنی سوت سمجھتی تھی۔ خیر ناشتے سے فارغ ہو کر میچ دیکھا تو سر جھائے سے چہرے پر خوشی کی لہر دوڑ گئی۔ مجھے مسکراتا دیکھ بیگم حیرت سے بولیں "کیوں جی! کس نئے دوست کا پیغام ہے" میں نے مسکراہٹ کو منکر یہ انداز دیتے ہوئے کہا "ہیڈ ماسٹر کا پیغام موصول ہوا ہے کہتے ہیں کہ کل سے اسکول آنے کی ضرورت نہیں۔" بیگم منہ بناتے ہوئے بولیں۔ ہیں!

اس کا کیا مطلب، کل سے اسکول آنے کی ضرورت نہیں، کیا تمہارا کوئی متبادل رکھ لیا ہے کیا؟"

"کیا بکواس کرتی ہو"

میں نے غصے سے کہا۔

"ایسا وہ کیسے کر سکتے ہیں، میں ایک سرکاری ملازم ہوں۔"

میں نے سینہ تانتے ہوئے کہا۔

بس کچھ ہی دیر میں دو سرپیغام آیا جس میں تفصیل درج تھی کہ "ملک میں پھیلی وبا کے سبب تمام اساتذہ اب گھر پر رہیں گے اور 'ورک فرام ہوم' کے فارمولے پر عمل کریں گے۔"

"یہ ورک فرام ہوم کیا بلا ہے؟"

بیگم نے تعجب بھرے لہجے میں سوال کیا۔ بیگم کے سوالوں کا جواب دینا یا اسے سمجھنا مقفل تالے کو دو سری کسی چابی سے کھولنے کے مترادف تھا۔ میں نے کہا کہ اب بچوں کو گھر سے پڑھانا ہو گا یہ سنتے ہی محترمہ بڑبڑانے لگیں۔

"جو جماعت میں براہ راست استاد سے نہیں پڑھتے بھلا وہ کیا خاک گھر سے پڑھیں گے"

والی ہے۔ کچھ ہفتے گزرے وبا کے کہر کے ساتھ ساتھ ہر میں نے کہا کہ مجھے پڑھانا تو ہے کیونکہ گھر بیٹھے تنخواہ جو ملنے کا میچ دیکھ کر طبیعت باغ باغ ہو جاتی تھی۔ salary credited طرف بے روزگاری، فاقہ کشی، مہنگائی اور دیگر اشیا کی قلت بھی بڑھتی گئی لیکن ہمارے گھر کا ماحول معمول کے مطابق ہی تھا، نہ کسی چیز کی کمی اور نہ کوئی قلت کیونکہ ہر ماہ موبائل پر

میں جس کالونی میں رہتا تھا وہ ٹچپرز کالونی تھی لیکن وہاں ٹچپر برائے نام ہی تھے ان سب میں ایک میں ہی تھا جو سرکاری وظیفے پر مامور تھا مجھے اس کی کیا پرواہ کہ میرا ہم شعبہ ساتھی مصیبت میں ہے یا اسے بھی کوئی مالی پریشانی ہے میں تو یہ سوچ کر خوشی سے پھولانہ سماتا کہ تنگی کے اس دور میں بھی ہمارے ہاں سب ٹھیک چل رہا ہے۔ میں اپنے کمرے کی کھڑکی سے باہر سڑک پر مزدوروں کو ایک وقت کی روٹی کے لئے لمبی لمبی قطاروں میں کھڑا دیکھتا اور انہیں کوستا کہ انہیں شرم آنی چاہیے اس طرح کھانے کے پیکٹ کے لیے ایک دوسرے پر گرے جا رہے ہیں اور اس پر پولیس ڈنڈے برساتی تاکہ وہ سماجی فاصلہ بنائے رکھیں۔ میں تو روزانہ یہ منظر دیکھ دیکھ کر عاجز آچکا تھا اور خود کو خوش نصیب گردانتا کہ میں ان جیسا نہیں ہوں اور ایسے حالات میں بھی میری فیملی خوش و خرم ہے۔

تالا بندی میں جب رعایت ملنے لگی تو آہستہ آہستہ لوگوں کے ساتھ ان کے حالات بھی باہر آنے لگے۔ جب بھی میں ٹھہل کر گھر آتا بیگم ایک قصہ لے کر تیار رہتی کیونکہ میرے نکلتے ہی وہ بھی کام پر لگ جاتی تھیں اور میرے گھر پہنچتے ہی سراپا اخبار بن جاتی کہ آج فلاں کے گھر راشن ختم ہو گیا، تیسری منزل والے آپا کے شوہر کو کام سے بے دخل کر دیا گیا، ہمارے پڑوسی سے جو آپ کے ہم پیشہ ہیں ان کی تنخواہ بند ہو گئی وغیرہ وغیرہ۔ بیوی کی ان باتوں سے میرا دل بیٹھ جاتا، آنکھوں کے سامنے اندھیرا چھا جاتا کچھ دیر کے لیے یہ محسوس ہوتا کہ کہیں میرے ساتھ بھی ایسا نہ ہو جائے لیکن پھر یہ سوچ کر کہ میں تو سرکاری ملازم ہوں ذہن پر چھائے ڈر کے گرد و غبار کو ہٹانے پر کامیاب ہو جاتا۔ میں تو ہر روز اللہ سے دعا کرتا کہ کب یہ مہلک وبا ہمارے شہر سے نکلے اور میں گھر سے کم بخت حکومت پہلے ہمیں ملک بدر کرنے پر بضد تھی اب گھر بدر ہونے پر ڈنڈے اور مختلف دفعات کا اطلاق کر کے ہمیں اندر کرنے پر تلی ہوئی ہے۔ نہ ہی آزادانہ طور پر باہر نکل سکتے ہیں اور نہ ہی گھر پر رہ سکتے ہیں ہیں۔ ماسٹر صاحب نے 'ورک فرام ہوم' کی ذمہ داری ڈالی تو بیوی نے گھر کے کاموں کی بہر کیف وقت گزر تا گیا حالات اور ابتر ہوتے چلے گئے اب تو ہر روز نیوز چینسلوں پر ملک میں بڑھتی ہوئی بے روزگاری کے آکڑوں سے مجھے کچھ تشویش لاحق ہوتی۔ دل و دماغ میں برے برے خیالات گشت کرنے لگے نہ چاہتے ہوئے خود کو بے روزگار ہوتا ہوا سوچتا اور فوراً اپنے دل کو اس بات پر یقین کرنے کے لئے آمادہ کر لیتا کہ میں تو سرکاری ملازم ہوں۔ جیسے تیسے دن تو کٹ جاتا رہتا کاٹنا ترے مشکل ہو گیا۔

ایک رات ایسی ہی خبریں دیکھتے دیکھتے آنکھ لگ گئی صبح عادت کے مطابق سب سے پہلے موبائل کا میسج باکس چیک کیا اور ایک میسج دیکھ کر دھچکا لگا جو ہیڈ ماسٹر صاحب کے دفتر سے وارد ہوا تھا کہ "جب تک یہ مہلک وبا ہمارے شہر سے ختم نہ ہو جائے اس وقت تک آپ کو بغیر تنخواہ کے چھٹی دی جاتی ہے

"اتنا پڑھنا تھا کہ میری ایک چسب نکل گئی۔ بیگم نے مجھے جگایا پیٹھ تھپتھپائی پانی پلایا میں کیا دیکھتا ہوں کہ ابھی تک میں اپنے بستر پر ہی ہوں۔ میں فوراً سرہانے ہاتھ بڑھا کر موبائل اٹھایا رات کے تین بج رہے تھے اور جلدی سے میج باکس کو ٹوٹا خدا کا شکر تھا کہ اس میں ایسا کوئی میج نہیں تھا یہ سوچ کر میں خوش ہوا کہ یہ تو ایک خواب تھا میں اب بھی سرکاری ملازم ہی ہوں میرے چہرے پر ہلکی سی مسکراہٹ دوڑ گئی۔ بیوی حیران ہو کر پوچھنے لگی "کیوں جی! کیا ہوا؟ کبھی چیخنے ہو کبھی مسکراتے ہو سب عافیت تو ہے" میں نے کہا "بیگم اب تک تو سب خیریت ہی ہے آگے اللہ کی مرضی"۔ میں نے بیوی سے اپنے خواب کا ذکر نہیں کیا بس دل ہی دل میں اللہ کا شکر ادا کیا کہ اس نے مجھے گرنے سے پہلے سنبھلنے کا موقع عطا کیا۔

World: then and now

Once upon a time, there were friendly places near and far.... Man is that an understatement in today's society!? Today, life depends on fighting for you and you alone. Heedless of what the other person wants, needs or deserves. 15 years ago, small communities were very friendly with each other. Small communities pulled together in times of need. If your neighbor ran out of sugar, she didn't care to come knocking on your door with a cup in her hand, instead of going all the way to the store to get more, simply because you were her friend. In today's society, if you run out of sugar, you get in your car and drive 25 minutes to get sugar in order to drive 25 minutes back home. You don't know your neighbors, and your neighbors don't know you! There is no hope in wanting to know them and vice versa.

Our society has changed tremendously over the past twenty years. We have become an information society. Relying on our televisions, radios, and computers to obtain information that was once obtained by going to the local beauty parlor or stopping for a cup of chai and chatting with the people at the small chai stall at the corner of your lane. Cell phones have also become a

major source of information. The mobile phone has changed our attitudes and expectations. If people are late they are expected to notify others by calling on their mobile phones. It is no longer necessary to agree on when and where to meet. People can just call each other on their mobile phones and say where they are at the moment.

Could the reason that we don't leave our homes as much as we used to, be because of all the violence that today's society has brought with it? The local news on television has publicized roughly five murders in the past week. Is the television shaping society's view of the world, causing citizens to become couch potatoes? Television is one of the biggest society shaping effects that there is in today's world. There are various cable companies and numerous channels within each company. The view you take on life all depends on what channel you are going to watch on television. For instance, Reporters from the channel Republic TV have been banned from attending any press conference of the Indian National Congress, citing them being subject to incessantly aggressive attacks by the channel.

"Like a girl"

We have heard this phrase used as an insult many times in our

November-2021

daily lives. What does this mean? Why do we use it as an insult? Whenever I hear someone around me use the phrase "like a girl" it bothers me a lot because it is always used in a humiliating way. If someone is showing vulnerability or weakness even in the slightest form you will hear people telling them to "stop acting like a girl". It is like being a girl only means you are weak. I remember as a kid hating this phrase and doing everything to not appear as "girly" because that just means you are weak. But now as a grown-up, it makes me

But now as a grown-up, it makes me feel nauseous whenever I hear this phrase. It is upsetting to know that how in our society the value of being a girl is so degrading. The thing that worries me the most is how our younger generation is getting influenced by this kind of mind set. We are in the 21st century, we need to bring awareness about this subject. We need to teach our young girls that being a girl is the most beautiful thing, we need to teach our young boys that girls are strong, powerful, and amazing creations, and acting like a girl is not a negative thing

it does not make them appear as a weak person. I hope one day we can build our society in a way where the phrase "like a girl" will no longer hold any negative connotations.
